26.5B. REFERENCES TO ADDED ENTRIES FOR SERIES AND SERIALS. SERIALS.

If the heading for a serial is needed as part of a heading/reference in a name authority record (and, for PCC, in a series authority record), use the AACR2 form for the serial.

LC practice: Use in the authority record the established AACR2 form for the serial from an AACR2 bibliographic or authority record in the LC database. If such a record is lacking, search OCLC or RLIN for a CONSER AACR2 record. If there is no CONSER record, formulate the heading according to the appropriate AACR2 rule for the choice of main entry, form of heading, and form of the title proper (or the uniform title); create a name authority record.

PCC practice: Use in the authority record the established AACR2 form for the serial from a CONSER serial record, a monograph record, or an authority record. If such a record is lacking, formulate the heading according to the appropriate AACR2 rule for the choice of main entry, form of heading, and form of the title proper (or the uniform title); create a name authority record.
